

CROATIAN CHAMBER OF ECONOMY COUNTY CHAMBER DUBROVNIK

The Croatian Chamber of Economy is an independent professional and business organisation of legal entities engaging in business. It consists of Headquarters in Zagreb and 20 county chambers. One of them is Dubrovnik County Chamber,

One of the most important tasks of the Chamber is the improvement of economic co-operation with foreign countries. As the main promoter and organiser of their participation at fairs and exhibitions, the CCE supports its members both organisationally and financially in developing a successful marketing approach to the respective market. This is possible thanks to the CCE's links with chambers and economic institutions around the world, which enables Croatian companies to establish successful contacts with counterparts in the respective country or region.

The Chamber assists in Croatia's efforts to follow liberalisation trends in global trade in order to ensure fair competitive conditions for exports.

With regard to multilateral co-operation, special attention is paid to the EU as the most important foreign trade partner, because full membership of this European integration is the main strategic goal of the Republic of Croatia, and we hope it will be by July 2013.
